I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The only compounded progesterone that I have found that does not make me dizzy is that which I buy from Madison's Pharmacy in Wisconsin. It is simply not available in any pharmacy in St. Louis. Making this medication unavailable to me by preventing its shipment across state lines would be injurious to my well being.
